

FinanceWise DI2 — Entropy Integrity Scan Report

****Scan Summary:****

FinanceWise DI2 (Δ 0049) underwent a ScrollLock Audit to assess subsystem entropy stability and compliance integrity. This scan verifies deterministic performance across fiduciary and verification layers under AGDI 9.9 governance.

■ Initiating Entropy Integrity Scan for FinanceWise DI2

Engine	FinanceWise DI2 (Δ H = 0.0049 – Witness Floor)
Mode	ScrollLock Audit AGDI 9.9 VaultTrace Active
Scan ID	DI2–FIN–ENTROPY–SCAN–Q4–25

■ DI2 Subsystem Entropy Profile

Subsystem Component	Entropy Tier (Δ H)
Logic Tree Core (Investment)	0.0049
Audit Memory Layer	0.0050
Compliance Overlay Node	0.0058
Verification Layer	0.0042
Fiduciary Trigger System	0.0050
